SOFTWARE DEVELOPER

Holding a Master's degree in Computer Science and a strong background in IT, I aim to apply my technical and organizational skills to contribute to your team. Passionate about innovative technologies, I am motivated to take on challenges and actively contribute to your projects. My goal is to support your success by offering tailored solutions.

SKILLS

Web development : HTML | CSS | JavaScript | TypeScript

Framework : Angular | .NET | Bootstrap | Tailwind

Programming : Python | C#

Database : SQL Server | Oracle | MySQL

Cloud platforms : Microsoft Azure

Design : UML

Collaboration tools : GIT | GitHub

EXPERIENCE PROFESSIONNELLE

Freelance Full-Stack Developer

Feb 2024 - Present

As a freelance full-stack developer, I started by creating attractive front-end designs and redesigning websites. Later, I expanded my skills to offer complete web solutions to international clients, covering front-end design, back-end development, and hosting management.

TECHNICAL ENVIRONMENTS : Angular , .Net , SQL Server , Tailwind , Bootstrap , Microsoft Azure

FREELANCE WEB DEVELOPER

Nov 2024 - Dec 2024

I developed and deployed a web solution dedicated to real estate diagnostics, focusing on providing an efficient and user-friendly platform.

TECHNICAL ENVIRONMENTS : Angular , Bootstrap , FireBase

FREELANCE FULL-STACK WEB DEVELOPER

Mai 2024 - July 2024

I developed and deployed a web application for real estate diagnostics with a user-friendly interface, secure payment gateways, and a scalable database, ensuring high performance and data security.

TECHNICAL ENVIRONMENTS : .NET , Sql Server , Angular , Bootstrap , Microsoft Azure

MSK - SOUSSE (INTERNSHIP-REMOTE)

Feb 2023 - Aug 2023

Creation of an e-learning web application offering an ideal environment for online learning, with personalized dashboards for administrators, teachers, and students.

TECHNICAL ENVIRONMENTS : .NET , Sql Server , Angular , Tailwind

ACTEOL - SFAX (INTERNSHIP)

Feb 2022 - May 2022

Developed a web application to automatically generate dynamic dashboards from an OLAP cube, tailored for internal use to enhance data visualization and support informed decision-making within the company.

TECHNICAL ENVIRONMENTS : .NET , Sql Server , Sql Analysis Services , Angular , Bootstrap
